ICS Sales and Process Technology, Inc. Announce Merger

PTI is pleased to announce that we have entered into a merger agreement with ICS Sales, a leading provider of process solutions, instrumentation and automation control products.

This merger with Process Technology, Inc., effective December 1, 2017, further strengthens our position in the process, instrumentation and controls industries. The combination of ICS Sales' 30 years and Process Technology, Inc.'s 30 years of industry experience will provide our customers with an even higher level of service and support than you have come to expect.

Process Technology, Inc. is grateful for the breadth of knowledge and relationships that Buddy Alford and Mike Geddes have built through their years with ICS Sales, Inc. Buddy and Mike will remain invaluable resources to you, and will be supported through this merger and growth by two additional salesmen – Rich Robins and Glen Mann – as well as PTI's inside sales team.

We at PTI look forward to working closely with Buddy, Mike, Rich and Glen as we expand our territory into Colorado, eastern Wyoming, and eastern Montana to serve you and your process instrumentation and controls needs.
