

Process Technology, Inc.

PTI Press Release

Utah Snow vs. Arizona Sunshine...

Our Salt Lake based Sales Manager, Ken Lawson has been an integral part of the PTI family for over 22 years. His career with PTI began in outside sales where he forged many positive business relationships. In 2008, he evolved into management becoming our sales manager. His devotion and zest for success has helped Process Technology become a competitive leader in the industry. Ken's passion for problem solving and constant learning coupled with PTI's devotion and core values, has made this partnership flourish for many years.

Ken is very excited to have the opportunity to shape the Southwest Territory into an industry stronghold that becomes a spokesmodel during economic ups and downs. His mission is to build the same organizational excellence that currently exists within the Rocky Mountain Region of PTI.

When asked what he loves about the industry, he said that "what we do and what we sell touches everyone's lives. From how food products are manufactured to automobile safety." We have a great impact on the value of today's society and have the ability to continually shape the world for the better.

Ken married his sweetheart, Lynna, in 1987 and they have two boys, Braden & Landon. Braden has followed in his father's footsteps working at PTI in the inside sales department. Ken's passion is his family and everything he does in life is for them. When he needs an escape, he can be found fishing or hunting or even relaxing on his deck with his family.
