UTAH NEVADA MONTANA IDAHO COLORADO NEW MEXICO ARIZONA

**What precautions do you have to currently monitor the health of the people who access your facility to feel confident that your facility is clean and virus free?**

### Keep People Safe

As the spread of COVID-19 clearly demonstrates, infections can pass through populations fast, and the ability to screen people for elevated skin temperature is a key tool in reducing the risk of disease spread.

**Safe Screening  
Fast Response  
Simple to Use  
Highly Accurate**

## VIRALERT 3 Human Body Temperature Screening System

Invest in an economical, real-time scanning solution that's safe, accurate, and easy to use to monitor the wellness of each of your employees, visitors, contractors and vendors entering your facility. **Protect your staff and your facility.**

### ACCURATE

- Fixed calibration source ensures reliability
- Supported by 70+ years of industry expertise
- Automatic face detection for best monitoring points

### SAFE

- Non-contact temperature monitoring camera
- Immediately detects elevated skin temperature
- Scans in compliance with social distance requirements

### EASY

- Intuitive user control
- Audible alarm and on screen notification
- Automated operation option

**Ametek Land VIRALERT 3** body temperature measurement system is installed at any access point in your facility. Once installed the system will take an instant non-intrusive body temperature measurement, without slowing the flow of foot traffic and give a visual and audible alarm for alert, allowing you to take the necessary steps to protect people and your facility.

### Recommended installation areas include:

- Entrances
- Shipping & Receiving
- Factory Floor
- Conference Rooms
- Common Areas
- Security Gate
