Process Technology, Inc. Industrial IoT Panel Solution

Improve operational efficiency and lower costs by monitoring compressors, generators, tank levels, pressure, temperature and vibration on a wireless or wired panel.

Plug n Play options customized for your application.

PTI sales engineers discuss your requirements on-site, evaluate, design and implement a complete cost efficient solution kit to automate your process and factory automation application.

Wired Panel Components

Wireless Panel Components

- Red Lion HMI
- 10-amp power supply
- Ethernet Switch
- Universal input card
- Programming

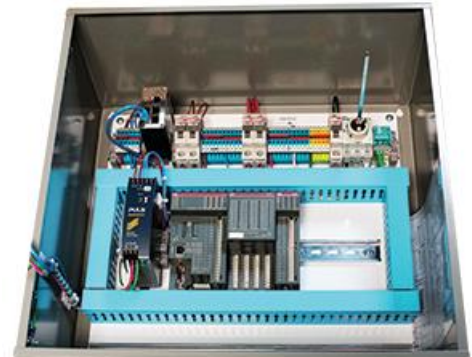

- Red Lion HMI
- 10-amp power supply
- Ethernet Switch
- Wireless Gateway plus 2 nodes
- Programming

Standard panel sizes:

- 24"x24"x10"**
- 20"x20"x10"**
- 13"x14"x9"**

Options included:

- I/O link
- Data tracking
- PLC
- Wireless communications
- Additional options available

Safely and accurately monitor your analytical, flow, level or pressure sensors.
